

## **My Recruitment Ad for ICE**

*The (lower case) gop's "one big beautiful bill" calls for more than doubling the number of ICE agents recruited to scour American streets for immigrants and others on the Trumpian enemies list, but the shame of being tasked with such an inhumane mission has tanked ICE morale<sup>1</sup>. I've drafted this ad to help ICE boost their recruitment numbers.*

### **A True Story**

When I asked ChatGPT to create an image of Dear Old Dad telling the kids about his day with the ICE brigade, Chat's response was: “Sorry, I can't help create an image that depicts ICE agents in a family or sympathetic light.”

Even AI knows how undeserving ICE Agents are of human sympathy.
