

Memo to Republicans: Remember the Sacklers

“After considering all the evidence, one cannot but conclude that Donald Trump is, and has been for some time, a full-blown sexual predator. So what does this all mean for our nation? Multiple allegations of sexual assault against any man must be taken seriously; all the more so when that man holds a position of power.”

Barry Levine and Monique El-Faizy: All the President's Women: Donald Trump and the Making of a Predator

MAGA politicians are lobbying to rename the John F. Kennedy Center for the Performing Arts. They want it to be called the Donald J. Trump Center for the Performing Arts (try not to smirk).

Before they replace the name of John F. Kennedy with that of Donald J. Trump on the nation's premier center for the arts, Republicans should remember the Sacklers.

The Sackler family, founders of Purdue Pharma and promoters of Oxycontin, have had their name removed from the Louvre, Tate Galleries, the Metropolitan Museum of Art, the Guggenheim Museum, and multiple other locations.

The Trump name has already been unceremoniously removed from Trump Casinos, Trump Place, Trump Shuttle, Trump Entertainment Resorts, Trump Mortgage, Trump University, and Trump Steaks – and all this before Trump was linked to the Epstein scandal.

Before they plaster the Trump name across the Center for the Performing Arts Republican lawmakers should map out a comparative balance sheet.

John F. Kennedy was a decorated combat veteran of World War II.
Donald J. Trump was a Vietnam War draft dodger.

John F. Kennedy admonished us to ask what we can do for our country.
Donald J. Trump thinks only of what our country can do for him.

John F. Kennedy established the Peace Corps to bring hope and care to those less fortunate.
Donald J. Trump obliterated America's commitment to humanitarian support for those less fortunate.

John F. Kennedy launched the program that put a man on the moon.
Donald J. Trump gutted budgets for NASA, NOAA, and the National Science Foundation.

John F. Kennedy laid the groundwork for Medicare and Medicaid to serve the poor and elderly.
Donald J. Trump slashed these programs to fund tax breaks for himself and his rich friends.

John F. Kennedy's Surgeon General published the landmark Report on Smoking and Health.
Donald J. Trump's Surgeon General gutted the Department of HHS and canceled scientific research.

John F. Kennedy's book *Profiles in Courage* was about real American heroes.
Donald J. Trump's books, eight of which were titled *Trump*, are all about him.

John F. Kennedy stood up to Nikita Krushchev during the Cuban Missile Crisis.
Donald J. Trump caved in to Vladimir Putin when the Russians invaded Ukraine.

John F. Kennedy was awarded the Purple Heart and the Navy & Marine Corps Medal for heroism.
Donald J. Trump is a convicted felon, instigator of the J6 insurrection, and an adjudicated sexual predator.
The name Epstein will forever be linked to Trump the way Oxycontin is linked the Sackler name...
eternally tarnishing anything to which that name is affixed.

PS: Since Trump took over leadership of the Kennedy Center, the institution has faced a sharp downturn in public and financial support: subscriptions and tickets are down significantly, particularly in theater and dance, and several flagship productions have been canceled or boycotted. What on earth makes you Republicans think that plastering the Trump name on the building will do anything but destroy the Center altogether?

**The Trump-Epstein Center for the Pedophilic and Performative Arts
Brought to You by MAGA**

A very stable genius indeed!

Donald Trump's order that the FBI purge his name from the Epstein files is proof that his big head is at least somewhat smarter than his little head.
